

*"Get into Golf at Bayview has been such a great experience! We've met some lovely people, which has been wonderful being new to the area. Plus, we now have the confidence to drop into some of the golf clubs we see on our travels to play a round – which we didn't dare do before! Thanks, Duane for your support and encouragement".*

Duane and the team have developed a range of 10-week programs running within the school term to guide you through every aspect of learning to play golf or grow your game. Our Get into Golf Introductory and Mixed programs are tailored to support beginner golfers and those with nominal experience.
